

ANUPAM RAJ

Computer Science Student | AI Enthusiast | B.Tech CSE 3rd Year (SISTec, Bhopal)

Email | [LINKEDIN](#) | [GitHub](#) | [PORTFOLIO](#)

OBJECTIVE

Third-year Computer Science undergraduate with strong foundations in Java, C/C++, Data Structures and Algorithms, and software development. Experienced in building academic and personal projects, with a strong interest in developing scalable and efficient software solutions. Seeking a Software Development Internship to apply problem-solving and programming skills, contribute to real-world engineering projects, and gain hands-on experience in modern software development practices.

EDUCATION

B.Tech – Computer Science & Engineering (CSE) SISTec, Bhopal	2024 – 2028 (Current)
3rd year student with focus on Data Structures & Algorithms, OOP, and Java	
Class XII – Science M.N Roy Inter College, Bairganja, Bihar	2024
Class X NS DAV Public School, Sitamarhi, Bihar	2022

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Dart

Web Technologies: HTML, CSS, JavaScript

Frameworks & UI: Flutter, Java Swing, AWT

CS Fundamentals: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

Database & Backend: MySQL, Firebase, Cloud Firestore

Tools & Platforms: GitHub, Android Studio, Eclipse, VS Code,

EXPERIENCE

Advanced Java Training SISTec	2026
- Completed hands-on advanced Java training covering Java Swing, AWT, and GUI application development - Built a fully functional Document Management System using Java, Java Swing, AWT, and MySQL	

PROJECTS

Document Management System	Java, Java Swing, AWT, MySQL 2026
- Designed and developed a desktop application to upload, organize, and retrieve documents with a clean GUI - Implemented CRUD operations backed by a MySQL database; applied OOP design principles throughout the codebase - Demonstrated end-to-end software development experience from UI design to database integration	
Attendance Calculator Website	HTML, CSS, JavaScript (ES6) 2026
- Built a frontend web app that calculates attendance percentage, safe bunk count, and classes needed to reach a target attendance, entirely client-side with no database or login required - Implemented a custom attendance target selector (60%, 75%, 80%, 90%), progress bar visualization, and attendance status indicator (Excellent, Safe, Warning, Critical) - Designed a responsive, privacy-friendly UI using Google Fonts (Poppins) and Font Awesome icons, with instant in-browser calculations and no data storage	
Digital GatePass	Flutter, Dart, Firebase Firestore 2026
- Developed a cross-platform mobile application to digitize campus gate-pass requests and approvals, replacing manual paper-based tracking - Used Firestore as a real-time backend to store and sync gate-pass requests, approval status, and user records across devices - Built the UI in Flutter/Dart with a focus on a simple request-approval workflow for students and authorized staff	

CERTIFICATIONS

- Certificate of Excellence – Project-Based Advanced Java Training, Dept. of CSE, SISTec Gandhi Nagar, Bhopal (Mar 2026)
- Geodata Processing using Python and Machine Learning – ISRO (2026)

- C++ Programming – GeeksforGeeks (2026)
- C & Java Programming – DUCAT (2024)
- AWS – Solution Architecture Job Simulation – Forage (2026)
